Aims and Commitment

- Improve animal health by my knowledge and abilities.
- Become a specialist to meet the animal health challenges of the future.

Language

- French (mother language)
- English
 - 1996: Training Language Program, Cambridge, U.K.
 - 1997: Language Exchange Program, Seattle, U.S.A.
 - 1998: Student Exchange Program: Senior year, Elko High School, Nevada, U.S.A.

Education

- 2003 Bachelor of Science in Animal Science**, (pre-clinical science)
University of Namur, Belgium, Facultés Universitaires Notre-Dame de la Paix, 2003.
- 2006 Doctor in Veterinary Medicine**, (clinical science and training)
University of Liège, Belgium, College of Veterinary Medicine, 2006.

Student Training

- 2000-2006 « Referral Veterinary Orthopaedic Surgery»**,
Clinique de Services Chirurgicaux Référés, Tournai , Belgium.
The practice is a well known referral practice in Belgium, as it offers referral surgical services in orthopedic and neurosurgeries for general practitioners.

-I have been involved as a student during 6 years from 2000 to 2006. I assisted consultations and mainly orthopedic and neurosurgeries.

- 2006 Veterinary Clinic Glorieux**,
Saint Saulge, France. Vet trainee, 7 weeks, small and large animals.

- I worked with Dr Glorieux in emergencies and routine work, days and nights.
- He works on internal medicine and surgery in both small and large animals.
- He is specialized in Equine medicine and reproduction.

-2006 Doctor College Michel,

Mons, Belgium. Vet trainee, 7 weeks, large animals.

-I worked with Dr College in emergencies and routine work, days and nights.

-He works mainly on large animals and we performed a lot of caesareans on Belgian Blue during the calving season.

Employment

-2006 « Referral Veterinary Orthopaedic Surgery »,

Clinique de Services Chirurgicaux Référés, Tournai, Belgium.

-I did all the first opinions and some surgeries.

-I gained experience as I received, assessed, diagnosed, and treated part of the daily referral cases.

-Also in charge of the perioperative pain management. I served both as assistant and primary surgeon in emergency surgeries.

-2007-03 Pet Vaccination Clinic

-I work as a locum and do first opinion practice.

-I gained experience in general practice and felt more confident with everyday medical cases in English.

-2007-07 Animal Health Trust

-Internship in small animals.

Further Postgraduate Training

-2006-11 Brentknoll Veterinary Centre and Referral, Worcester, U.K.

Dr D P Fisher B Vet Med Cert SAC Cert SAM MRCVS;

-Enabling me to discover a different method of work in small animal internal medicine and cardiology (team work, accurate diagnosis, drugs uses, client approach).

-Seeing practice for two weeks. I have followed Mr D P Fisher B Vet Med Cert SAC Cert SAM MRCVS in his daily work: Consultations and surgeries in small animal internal medicine and small animal cardiology.

-I shadowed and assisted his veterinary colleagues in their daily work. One is a certificate holder in veterinary anaesthesia and another is enrolled for the certificate in small animal internal medicine.

-2006-12 AO Small Animal Advanced Course.

Advances in Fracture Treatment, Davos, Switzerland.

-AO small animal course gave me an overview on perioperative patient management, how to assess a complex fracture (clinical, biological and mechanical), information on minimal invasive osteosynthesis, different fixation concepts and implant devices. I learned how to correctly choose and use different fracture fixation devices and received information on the new TPLO plates and we assessed, discussed and treated complications in fracture treatment.

We also had practical exercises on comminuted fracture, application of locking devices, new TPLO plate, corrective osteotomy.

-2007-01/02 Seing Practice at:
The Animal Medical Center, Manchester;
The Scarsdale Veterinary Hospital, Derby;
The Queens Mother Hospital, Cambridge;
The University of Liverpool ,Liverpool.

Forthcoming Postgraduate Training .

- I would like to find a residency in neurology to gain and consolidate my practical clinical experience in that particular field in order to become part of the European College of Veterinary Neurology.

Hobby .

Friends: enjoy spending time socialising relaxing with my friends and colleagues.

Sports: golf, football, badminton, squash, running, tennis

Social Activities:

-Scouts: Scout chief for three years.

-University: Students committees for five years and president of extra scholar activities student committee in 2006.

Personality .

As a person I am outgoing and very sociable. I am hard working, meticulous, dependable and a team player. I take great pride in the best care of my patients and greatly enjoy new challenges. I have always been thriving after new knowledge which is why I enjoy being in environments where professionalism is the major criteria.
